Discount Policies

Uninsured Patient Discounts

In keeping with the BSA mission and core values, all uninsured patients will be treated fairly and with respect at all times.

If you are uninsured, you may qualify for discounts for services you receive while in the hospital. These discounts will be provided in order to ensure you receive quality healthcare.

You may qualify for financial assistance if you are unable to pay for all or a portion of your charges. For more information on how to apply for financial assistance, please call the Business Office at 888-568-3522 Monday through Friday from 8 a.m. to 5 p.m. A representative will help you find your best option for payment.

Once you have contacted the Business Office, a representative will help you apply for government assistance if eligible or other forms of financial assistance. Applications for financial assistance are available in the Admitting or Business Office. To access the financial assistance application, please click here.

If your income is below 400% of the federal poverty level, you may be eligible for a reduction in your cost. An application for financial assistance and proof of total household income are required for all levels up to 401% of the federal poverty level.

Discount Policy Exclusions

If your insurance company, including government-sponsored insurances, covers your services, you will not qualify for any discount policies. If you are covered by a third party source of payment, you will not qualify for any discounts.
